

We build bonds of trust for a healthier, happier world.

It is our desire to help deliver safe and high-quality new drugs to patients as early as possible.

We aim to achieve this through "CRO x IT" - offering sophisticated services by integrating our CRO services with excellent information technology (IT).

We will not just provide high-quality services but also play a leading role in reforming the pharmaceutical / healthcare domain by utilizing information technology in a bold yet safe and reliable manner.
